

Help Attract and Retain Tenants

by working with Comcast Business

Property owners attract and retain tenants in a variety of ways, including working with Comcast Business to provide a suite of advanced communication services including broadband Internet, advanced voice, TV, WiFi, and more. Tenants are increasingly looking for Internet connection speeds of up to a gigabit and when property owners work with Comcast Business, they'll have the right bandwidth available for their tenants.

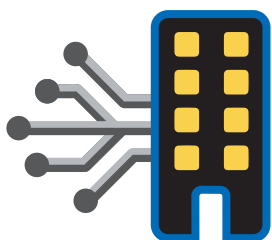

Working with Comcast Business is as **EASY as 1, 2, 3.**

Step 1 Teamwork

- Property Principals (Owners and Managers) don't want to be left out of the loop. Comcast Business is committed to working with you collaboratively on services we plan to bring to your property.
- When you are ready, we are ready.

Step 2 Site Readiness

- Comcast Business will keep you apprised of our plans through the entire process.
- Comcast Business will determine the installation process and, if construction is needed, Comcast will explain any work required for minimal impact to you and your tenants.

Step 3 Activation, Support, and Ongoing Services

- Your building is now equipped with advanced communication services installed by Comcast Business and activated for your tenants.
- Should your tenants experience any issues, Comcast Business professionals are available to support your tenants to resolve their issue(s).

BENEFITS OF WORKING WITH COMCAST BUSINESS

For Your Property:

Attract tenants and create a critical differentiator for your buildings by providing industry-leading communication services.

Retain tenants by providing workspace that supports current and future business connectivity demands.
