

THE COMCAST BUSINESS EXECUTIVE BRIEFING CENTER DEMONSTRATION DESCRIPTIONS

COMCAST
BUSINESS
OUTMANEUVER

BUSINESS VOICE EDGE

Immerse yourself in this highly personalized and engaging experience by directly integrating your customers into the demonstration. Experience the mobile app, Skype solution, hand-set alternatives, and the end user and administration portals firsthand.

BUSINESS ETHERNET

Witness a live large data file transfer comparing Comcast Business to our competitors. Bandwidth will be manipulated to better represent the competitor networks—giving you a real feel for the difference in speeds.

WiFi PRO

Observe the ease of use of running customized reports, adding personalization to your splash page, or quickly and easily adding another network. Highlights include real-time data analysis of users in the area.

SMART OFFICE

See how operators can receive real-time video clips triggered by movement in the facility in this live demonstration of our HD video monitoring solution. You'll also experience a 30-second video clip cloud storage, the mobile app, and managing the network.

MANAGED SERVICES

Watch a simulation of multiple sites running a live network and how redundancy kicks in when a facility loses an Internet connection. Additional highlights include experiencing how easy equipment set-up really is.
