VOICE MOBILITY

REVOLUTIONIZING YOUR BUSINESS PHONE FOR THE WAY YOU WORK

INTRODUCING COMCAST BUSINESS VOICE MOBILITY

Now, all you need is one business phone number to stay connected with your office and your customers, even when you're not at your desk.

Voice Mobility is a landline phone service that includes unlimited local and domestic long distance calling plus over 20 enhanced calling features including popular mobility features like Simultaneous Ring, Sequential Ring and BeAnywhere. You can manage the easy-to-use mobility features through the Comcast Business Online account or through your iOS or Android smartphones, so that you're always connected. You simply download the Voice Mobility app and go.

Voice Mobility is a powerful phone line that is built for the way you do business. Now, you can take your office calls at your desk or when you're on the road. And when you make outgoing calls from your mobile device, your business phone number will appear on the other end of the line.

FIT MORE BUSINESS INTO YOUR BUSINESS DAY

Missed calls mean missed business opportunities. With Voice Mobility, important calls can reach you even when you are away from the office. Respond to business issues more quickly, improve your personal productivity, and enhance your company's overall efficiency with our easy-to-use Mobility app.

Never Miss a Call

- Business calls ring to your desk and your mobile device.
- Clients, vendors and employees use just one business phone number to reach you.
- Your mobile device notifies you of new business calls and voicemail messages.
- Easily check recent inbound and outbound calls. Automatically dial from this list.

Transfer Calls Seamlessly

- The Move Call feature lets you take calls-in-progress with you as you travel.
- Seamlessly transfer calls between your office phone and mobile phone.
- Transfer calls to another telephone number or extension.

Project a Professional Image

- Calls from both your landline and your mobile phones will display your business number on Caller ID.
- No more worries about giving out your personal mobile number for business calls.
- Use your mobile phone to check or forward your business voicemail. Get notifications when you have new voicemail.
- Access your company directory from your mobile device.

Reliability and Dependability

- Business Voice service is delivered over Comcast's privately managed network which means top call clarity for your phone calls.
- Professionally installed by Comcast's local Technical team.
- Back-up battery provides up to 8-hours of power in the event of an outage.
- Call Forwarding Not Reachable feature means calls can be automatically forwarded in the event of an outage.
- Take advantage of Caller ID, Call Waiting, 3-Way Conference Calling and Call Screening functions.

VOICE SERVICE YOU CAN COUNT ON

Comcast Business Voice Mobility comes with our 24x7 Dedicated Business Support and a dedicated local Account team. And it's all backed by the Comcast Business Promise.

Isn't it time that your business phone catches up to the way you work? Contact your Comcast Business representative today to learn how you can take your phone service with you wherever you go.

Restrictions apply. Not available in all areas. Minimum term contract required. Early termination fees apply. Service (including 911/emergency services) may not function after an extended power outage. Transfers of existing telephone number not always available. Call for restrictions and complete details.

COMCAST BUSINESS VOICE APP

The Comcast Business Voice App puts your business phone system in the palm of your hand and is available wherever you go.

The app lets you make calls using your business number just as if you were in your office. Move calls to and from your desk phone or any phone number you want with the swipe of your finger. Check your business voicemail, set your smartphone and other phones as your ring to devices, see your call log and have easy access to your company phone directory.

Available to all Comcast Business Voice Mobility users.

FEATURES & BENEFITS

- Place outbound calls using your business office number
- Move calls to the phone of your choice while a call is in progress with a swipe of the finger
- Listen to and forward your business voicemail messages
- Use the keypad for extension dialing
- Get notifications when you have an incoming call and new voicemail
- Access your Business phone directory
- Turn Do Not Disturb on and off for privacy
- View call information and return calls from your call log wherever you are
- Select your Be Anywhere ring-to devices any time so you do not miss a call
- Add contacts to your phone directory from voicemail, call logs or company directory
- Choose how to call from the keypad, directory, voicemail log or recent call log
