COMCAST BUSINESS MAKES DESK PHONES MOBILE FOR SMALL BUSINESS OWNERS AND EMPLOYEES

New Voice Mobility Service Blends Traditional Office Phone Lines with an App that Provides Anytime, Anywhere Access from Mobile Phones

PHILADELPHIA – October 1, 2015 – [Comcast Business](http://business.comcast.com) today announced the launch of Comcast Business Voice Mobility, a new type of phone line for small- and medium-sized businesses (SMBs) that includes an easy-to-use mobile app so employees don't miss a business call or message when away from the desk or traveling.

"Comcast Business Voice Mobility provides an easy-to-use mobile app that enables our business customers to quickly check voicemails, make and receive calls, transfer calls and more," said John Guillaume, vice president of Product Management at Comcast Business. "Comcast delivers superior call quality to millions of small business owners over our owned and managed network, and this app extends our voice capabilities to employees on their iOS or Android mobile phones."

Comcast Business Voice Mobility is designed for employees whose jobs require them to work outside of an office but want to stay connected to their business phone line at all times, using a single phone number. From the app, Comcast Business Voice Mobility delivers access to a range of calling features, including:

- Voicemail – Access business voicemail at any time using a smartphone.
- Be Anywhere – Never miss a call by receiving business calls on a mobile phone or another phone out of the office. Outbound calls using Be Anywhere will show the office Caller ID.
- Move Call – Seamlessly move in-process calls between your mobile phone and office phone.
- Transfer Call – Transfer an active call to another telephone number or extension.
- Contacts – Have access to business contacts anytime, anywhere.
- Recents – Access recent calls that you may have missed when traveling.
- Do Not Disturb – Block incoming calls for privacy.

Comcast Business Voice Mobility is available now for new customers and can be purchased by calling 800-501-6000. For more information, visit comcastbusiness.com.

About Comcast Business

Comcast Business offers Ethernet up to 10 Gbps, Internet, Wi-Fi, Voice and TV solutions to help organizations of all sizes transform their business.
