### Comcast Business SVP of Product Management, Robert Victor, Joins MEF Board of Directors

*World-class team brings executive insight to MEF's mission to accelerate worldwide adoption of assured MEF 3.0 services across automated networks*

**PHILADELPHIA – August 26, 2019 – [Comcast Business](#)** today announced that Robert Victor, Senior Vice President of Product Management, has joined the [MEF Board of Directors](#). Victor joins the new Board which includes an experienced team of service and technology executives committed to accelerating adoption of assured MEF 3.0 services across a global federation of automated networks. These services provide the dynamic performance and security required to thrive in the digital economy. The new board was recently announced at the MEF Annual Members Meeting in Philadelphia.

“As a leading voice in SDN-enabled Ethernet solutions and services, Comcast Business is deeply committed to working with the MEF to enable next-generation network services that help businesses and their customers succeed as they progress along their digital transformation journeys,” said Victor. “Comcast Business is look forward to working with the Board to advance the MEF 3.0 framework.”

The new Board of Directors will continue efforts to grow and diversify MEF’s community of service providers, technology vendors, and other companies that are committed to building a worldwide ecosystem of automated networks that power MEF 3.0 services. Together with the broader MEF community, the Board is advancing a rigorous roadmap that will enable services that provide an on-demand, cloud-centric experience with unprecedented user- and application-directed control over network resources and service capabilities.

“Having such a diverse, innovative board, so deeply experienced with our industry and committed to our mission, brings incredible value to the MEF community as we strive to deliver solutions optimized for digital transformation,” said Nan Chen, President, MEF. “Our mission to deliver a practical framework and roadmap for service providers and their vendors to drive innovation in our industry will be advanced all the more quickly with the support of such a powerful group representing the industry’s more influential business, technology, and thought leaders.”

The geographic representation of major service providers on the Board directly reflects MEF’s transformational influence on communication services worldwide.

#### **About Comcast Business**

Comcast Business offers Ethernet, Internet, Wi-Fi, Voice, TV and Managed Enterprise Solutions to help organizations of all sizes transform their business. Powered by an advanced network, and backed by 24/7 customer support, Comcast Business is one of the largest contributors to the growth of Comcast Cable. Comcast Business is the nation’s largest cable provider to small and mid-size businesses and has emerged as a force in the Enterprise market; recognized over the last two years by leading industry associations as one of the fastest growing providers of Ethernet services.
