

UNITED STATES POSTAL SERVICE AWARDS COMCAST BUSINESS CONTRACT FOR MULTIPLE MANAGED SERVICES

Comcast Business solution to help boost bandwidth, manage network costs, and enable increased innovation

PHILADELPHIA – NOVEMBER 11, 2021 – Comcast Business today announced it has been awarded a contract by the U.S. Postal Service (USPS) to deliver managed network services to more than 3,000 USPS sites around the country.

The Comcast Business solution includes multiple managed services from the Company's portfolio, including Managed Broadband, Managed SD-WAN, Managed 4G Business Continuity, as well as Proactive Monitoring and Maintenance. This solution helps customers manage overall network costs and provides additional bandwidth for new application development.

"The U.S. Postal Service provides the American public with a trusted, affordable, and universal mail service. We're honored to be selected for this contract award," said Purazar Gowadia, Vice President and General Manager, Enterprise Solutions, Comcast Business.

Today, government agencies rely on advanced network solutions from Comcast Business to deliver increased efficiency; manage costs for civilian, defense and intelligence agencies; and provide fast, reliable connectivity down to the last mile. Comcast Business provides the network foundation agencies need to run bandwidth-intensive applications. Its high-speed, high-capacity connectivity, which scales rapidly up to 100 Gbps, operates across Comcast's diverse infrastructure and can deliver secure access to cloud and data center resources for connectivity and communication.
